

COUNCIL 4 CHANGE

AWARENESS | WISDOM | EMPOWERMENT

OVERVIEW

- **Do you have a committee focused on organizational belonging?**
- **Are you looking for interactive opportunities for your PLCs (Professional Learning Communities) or ERGs (Employee Resource Groups)?**
- **Do you want support in talking through more difficult topics?**
- **Are you at a stand-still not knowing what information is available to you?**

Council 4 CHANGE is a series of eight monthly conversations for up to 20 participants with a focus on topics supporting organizational culture and belonging. With a catalog of topics to choose from, the experience is fully customized for your organization.

An US² facilitator will guide the group through the topic of the month, followed by reflection and brainstorming to put ideas around the concept into action. Your group can take part in one series, or you can participate in a multi-year commitment to keep the conversation going. Potential topics include foundational principles of belonging, organizational culture and change leadership, humanizing bias, courageous conversations, -ISMs, and more!

Visit the US² Consulting website for more information.
